Research Shows...

Research shows seniors with memory deterioration who live at home and receive quality, professional healthcare enjoy safer, longer, happier lives. And 90% want to live at home. Baby Boomers Home Healthcare is the only home healthcare agency in Virginia specializing in memory care.

- A unique, engaging program built around the individual, not the disease.
- CNA's, Registered Nurses and licensed therapists thoroughly background checked, specially trained in memory care.
- An app specifically designed for clients with memory deterioration and their caregivers.
- Medicaid, private insurance, long-term care insurance, Veterans' benefits accepted.

The only home healthcare agency in Virginia that specializes in memory care, Baby Boomers Home Healthcare provides superior, compassionate medical and non-medical care for seniors with Alzheimer's disease and dementia. Our engaging programs integrating family histories, technology and proven techniques facilitated by highly-skilled CNAs, nurses and therapists allow clients to enjoy living at home with dignity and respect.

-  Staff available 24/7
-  Continuous training for all staff
-  Education and support for families
-  Opportunity for clients to learn coping skills
-  Multicultural caregivers fluent in many languages
-  Registered Advocate through VA Alzheimer's Association
